#### **What is the New Frontiers in Environmental Law program?**

New Frontiers is a summer program for undergraduates interested in environmental law, justice, and advocacy. It consists of two courses—Introduction to Law & Policy and Law of Ecosystem Management—designed to introduce students to the foundations of the U.S. legal system and the legal framework shaping environmental policy. Courses are taught by faculty from VLS' top-ranked Environmental Law Center and give students the foundation they need to become effective environmental advocates. Students in the New Frontiers program are also invited to attend "Hot Topics" lectures on current events in environmental law and policy, as well as take additional courses offered as part of the VLS Summer Session program. Complete program information, including course descriptions, is available at

<https://www.vermontlaw.edu/academics/undergraduate>.

#### **When and where will the program take place?**

The second course, Law of Ecosystem Management, will take place on the Vermont Law School campus in South Royalton, VT from June 18-20, 2018. South Royalton is a small town approximately two hours northeast of Bennington.
