onions, coconut milk, garlic

2 large butternut squash peeled and
chopped into, say, 1 inch chunks

3 medium onion, diced
6 cloves of garlic, minced
5 tb of minced ginger
3 cups vegetable broth
1tb dried thyme
1tb of salt
1 can coconut milk, 14oz
3tb oil

Before adding all the ingredients into the slow-cooker, coat our little slow
friend in good oil, like canola oil, to prevent burning and sticking. It is important that the oil you
use can stand high heat. Add everything into the pot, stirring everything together.

Seal the pot, making sure your vent is “open”, slow-cook on “high” for 4 hrs
Blend soup using a blender or even better yet, an immersion blender.

Serve warm!
