

1. Through its commitment to the values of the liberal arts, Bennington College fosters the ethical, social and poetic imaginations of its students who become the embodiment of a process of inquiry central to the education of a whole person. Students come to Bennington College to change their lives, and once changed, they transform the world.
2. At Bennington, students learn and create alongside world-class faculty, drawing on the transformative power of the liberal arts tradition to shape the future. Through creative practice, experiential learning, and rigorous inquiry, a Bennington education endows its graduates with aesthetic intelligence and deeply embodied knowledge. We are tomorrow's artistic engineers, poetic thinkers, and democratic leaders working toward a world with more beauty, justice, and vibrancy.
3. Bennington College is a beautiful place, a transformative educational model, and a powerful idea. Our students immerse themselves in questions that cut across established fields of human knowledge, and pursue their passions in creative practice and rigorous research alongside exceptional faculty guides. At Bennington, our tradition is not simply to draw on the past. We invent the future.
4. Bennington College is a place of radical transformation in which we empower our students to direct their own education—a process that lasts a lifetime. Through our practice of self-directed learning and our desire to foster enduring relationships between people, we foster the aesthetic, ethical, social and poetic imaginations of individuals who then go on to invent the future.
